

## **South Landing**

Approaching Flamborough Village on the B1255 or B1229 follow the signs to South Landing or, at the Church, take the B1259 signposted to the Lighthouse. Take the first turning right (at the crossroads where the playing field is located) signposted to South Landing.

At South Landing, you will find ample parking (pay and display), the Boathouse Café with toilet facilities open during café hours, picnic areas and South Landing Local Nature Reserve (designated as such on 14<sup>th</sup> May 2002) and Sculpture Trail. The trail can be accessed by foot from the car park and follows a wide, hard path to the cliff top where there are spectacular views out to sea and towards Bridlington. The path follows a loop round back to the car park.

Access to the beach is 100 m from the car park by foot via a steep road (only authorised vehicles have access and there is no visitor parking by the beach). Access to the beach can also be found via steep steps from the nature trail. Flamborough Lifeboat Station is located here.

Local Nature Reserves (LNRs) are places with wildlife or geological features that are of special interest locally and which also provide opportunities for people to study and learn about or to simply enjoy and have contact with nature. This form of designation also offers additional statutory protection and enables funding to sensitively manage these popular sites.
