100/21 Public Participation Session (15 minutes):

A resident reported breaches of conditions by the contractor working on the building site near Woodcock Road, including early start times and unloading of materials, lack of wheel washing causing mud on roads and the nearby right of way being moved with branches cut off overhanging trees. ERYC had been informed but requests to comply with conditions appeared to be ignored.

Deficient lighting was reported on and around High Street in Flamborough

Concerns were raised regarding the Fire Festival which was due to be held on 31 December 2021. Parking and access to the village was a problem; it was noted that in previous years cars had been parked illegally and the amount of traffic both parked and entering the village prevented access to local residents. Health and Safety issues were also a concern; access for emergency services could be compromised by excess traffic, and the safety of 2,000 lit fire torches. Antisocial behaviour in the village such as entry to and urination in private gardens was also reported. The Council were asked to request to see the accounts for the events.

108/21 To consider request from Get Kids Going! for use of Village Green for Fire Festival on 31 December (attached)

Two petitions had been received which requested that the Fire Festival did not go ahead. Councillors also reported that they had received representations from villagers objecting to the Fire Festival for reasons including public safety, problems with parking in and access to the village, the general disruption to local families during the holiday and loud fireworks late at night. Covid was also a concern given the large numbers of people in a small space and it was noted that London had cancelled the annual fireworks display because of this.

RESOLVED: that permission to use the Village Green be refused.

The representations made all opposed such an event and should such an event be proposed again the Council wished there to be a referendum in the village to determine public feeling. The Council were aware that the event raised funds for local charities and were willing to work with Get Kids Going! throughout the year to ensure that local charities continued to benefit.
